*Letter of Recommendation – Shannon Construction*

Re: Evoqua World Headquarters Construction Project for the 32<sup>nd</sup>, 33<sup>rd</sup>, and 34<sup>th</sup> floors at K&L Gates Center

To Whom it May Concern:

Shannon Construction served as general contractor for the new Evoqua Water Technologies world headquarters office located in K&L Gates Center at 210 Sixth Street, Pittsburgh, PA 1522. The project involved three floors of extensive demolition and interior construction of an “open concept” office space with a cafeteria, training room, and several new glass-front offices for the 32<sup>nd</sup> Floor, 33<sup>rd</sup> Floor, and 34<sup>th</sup> Floor, comprising a total of 55,000 s.f. of space for our 250 employees in Pittsburgh. Shannon Construction completed the new office headquarters buildout in September 2017 at a cost of approximately \$1.5 million, which was on-time and within the prescribed budget per our construction contract.

We are pleased with Shannon Construction’s quality of workmanship and the project management team met all of our expectations to satisfactorily deliver the space to Evoqua under a very tight deadline. We were pleased with Shannon’s attention to detail, prompt response time, and open communication, all of which were critical in making this a successful project for Evoqua. Feel free to contact Robert Feil at (724) 719-7827 or Christopher Wild at (724) 772-1340 if you have any questions.

Sincerely,

Robert Feil  
Pittsburgh Facility Technician
